E. SESSION SUMMARY:

The target is a strong form of energetics.

There is a sudden brightness that is quick, jagged, sharp and bright; against a dark background. It has the energy of a lightning bolt, very fast. It is moving upwards with sudden and precise movement.

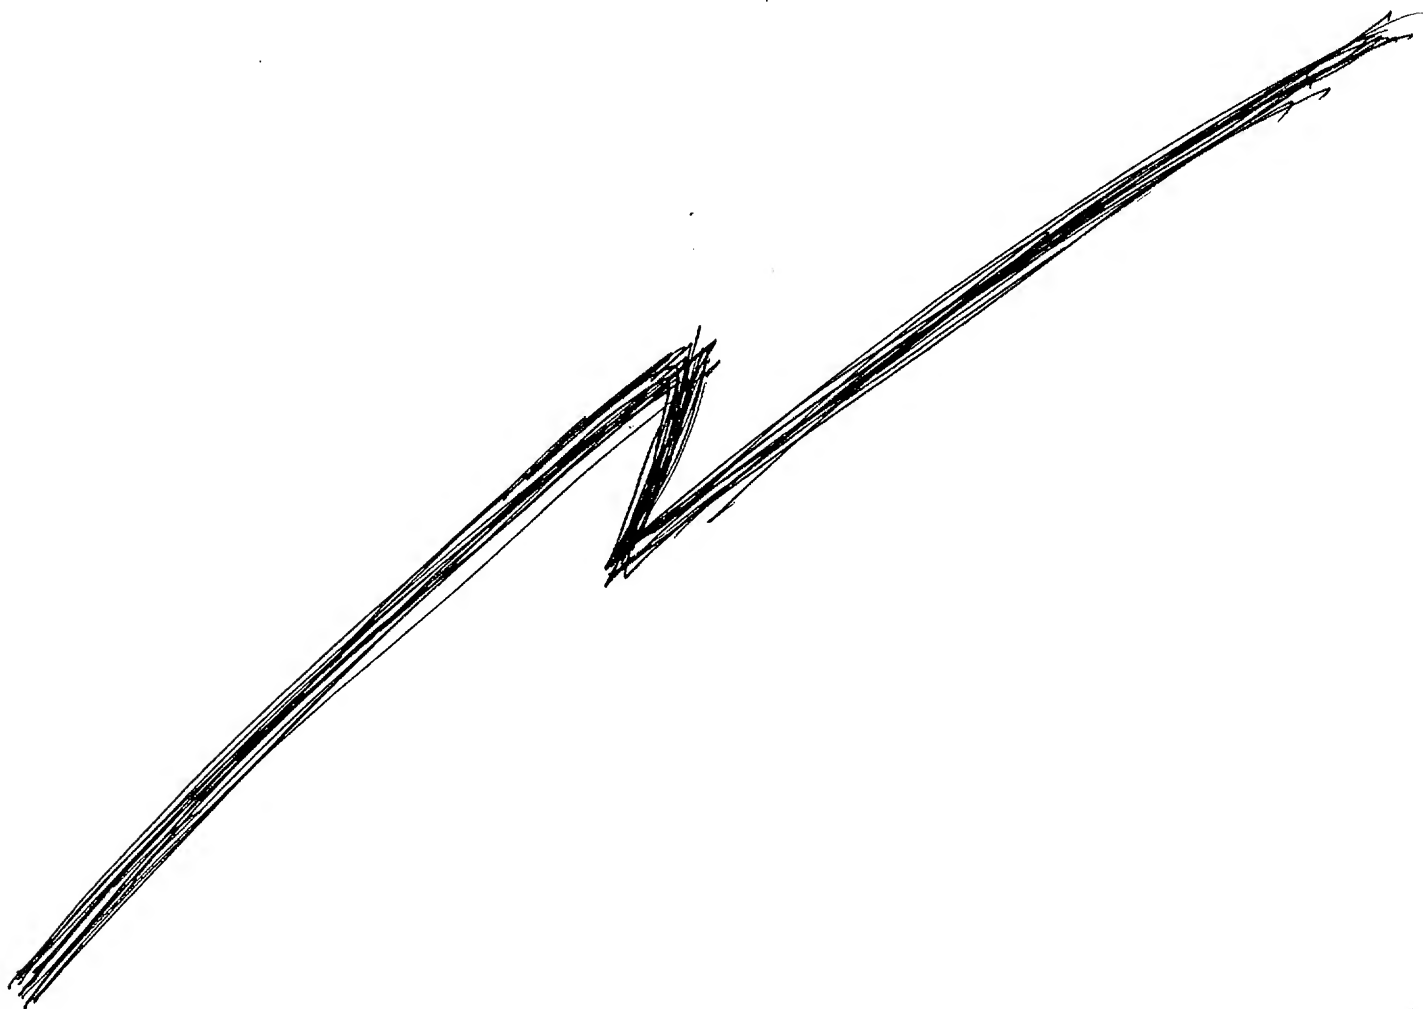

There is also a series of up and down rolls, like a current or a flow of energy, that repeat the same movements. (See sketches.) There is a kind of rolling sound or roaring sound that is noisy and LOUD. There is something in rolls and something round, (it is possible that the target is recorded on film.) There are people in the target area, and green trees.
